Christopher José Aponte Ovalles

Full Stack Developer

Bogotá D.C., Colombia
+57 319 4749249 | christopher4ponte@gmail.com

Professional Summary

Full Stack Software Developer and Data Scientist with more than two years of experience in process automation, financial data analysis, AI model training, and backend/frontend solution development. Experienced in REST API development, ETL processes, data visualization, and software testing. Proactive, adaptable, and results-oriented professional with strong analytical and problem-solving skills.

Professional Experience

Full Stack Developer **Expertos Consulting**
August 2024 – Currently

- Developed Expertos Inventario, an internal inventory and purchasing platform (Django REST Framework, React, PostgreSQL) with JWT authentication, roles and permissions, a real-time KPI dashboard, low-stock alerts, and supplier and purchase order management.
- Led audit support for Incocrédito (99% compliance), Banco Popular (90%) and Banco de Occidente (100%), presenting results through an interactive graphical interface for ease of use during the audit.
- Optimized the company's legacy CRM database queries (60K+ records) with LIMIT/OFFSET pagination and stored procedures, cutting response time by 98.75% (from 40 s to 0.5 s).
- Built OCR Extractor, a tool that extracts text from PDFs and images and loads it into the database.
- Developed a service and printer status reporting bot with network scanning, using Python, Playwright, Tkinter (GUI), Nmap, and Wireshark.
- Created CheckCRC, an application for validating phone numbers against the CRC.
- Managed the company's WordPress landing page and implemented security measures after an impersonation attempt.
- Built OnScrapping, a Python and Playwright bot that simulates a webhook for client filing status with Banco Popular on a legacy Flash 11.5 platform.

Monitor **National Learning Service (SENA)**
March 2024 – August 2024

- Managed databases and optimized queries for Excel-based data consolidation and analysis.
- Automated administrative forms and internal processes.
- Designed reports and visual materials for institutional presentations.

Education

Technologist in Software Analysis and Development
National Learning Service (SENA) 2024 – 2026

Certifications

- Massive Data Systematization Using Analytical Methods and Technological Tools (Intermediate Level) — IBM & SENA (2025)
- Application of the Scrum Framework for Software Development Projects — SENA (2025)
- Relational Database Administrator — Fundación C.S. (2024)
- Exploratory Data Analysis with Python — SENA (2024)
- Database Construction with MySQL — SENA (2024)

Technical Skills

Backend: Python, Django REST Framework, MongoEngine, JWT

Data Analysis: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Jupyter Notebook, Google Colab

Machine Learning: Scikit-Learn, PyTorch, Transformers, MLFlow

Databases: PostgreSQL, MongoDB, MySQL

Frontend: JavaScript, React, HTML5, CSS3, Tailwind CSS, Maizzle, Chart.js

Testing: PyTest, Selenium, Playwright, Storybook, Postman

DevOps / Tools: Docker, Git, GitHub

Business Intelligence: Excel, Power BI

Others: Bash, Swagger/OpenAPI, C#, .NET Framework, PHP, Visual Basic, Draw.io, n8n

Projects

- **CHDV Sentiment Analysis**
  `https://huggingface.co/SenaSoft/chdv-sentiment-analysis`
- **CHDV Summarization**
  `https://huggingface.co/SenaSoft/chdv-summarization`
- **Wissen – Student Behavior Tracking System** (Private Repository)
- **Expertos Inventario** (Private Repository)
- **TaskMan Bot** (Private Repository)

Achievements

- Winner of a national Artificial Intelligence competition judged by IBM.
- Trained AI models for multivariate classification, emotion analysis, and automated text summarization.
- Recognized as the only participant to perform real-world system testing during the competition.

Soft Skills

Leadership • Adaptability • Proactivity • Strategic Thinking • Teamwork • Decision Making

Languages

- Spanish — Native
- English — Upper Intermediate (B2)
- German — Basic (A1)
